President’s Message….

On August 8th the NJSFPE Board of Directors met for the annual chapter-planning meeting. Our goal is for our members to have an informative and enjoyable experience at our chapter’s events. We have laid out a great year of chapter meetings, a field trip and annual spring technical seminar.

We will begin the year with a visit from Richard Mikutsky, the new Fire Marshal from the State of New Jersey at the September 10th chapter meeting.

On October 18th we plan a bus trip to the Cooper Wheelock manufacturing facility in Long Branch, NJ follow by a visit the National Guard Museum in Sea Girt where SDI will make a presentation.

November 5th, Tim Costello with WJE will present ‘The Fundamentals of Fire Resistance’.

Our Fire Prevention Week Grant Program has received unprecedented response this year with 34 applications. Contingent on NJ-NY Metro Education Foundation matching our grants, we will increase the number of grants from 4 to 8 for this year only. We will announce the winners at the September 10th chapter meeting.

The SFPE International Annual Conference & Expo is being held in Nashville, Tennessee October 28-30th. A number of board members are attending this annual event that is frequently cited as the top source of the latest technical information on fire protection engineering issues and emerging trends, case studies, research, and codes and standards. With more than 425 leading professionals from around the globe participating in this annual event, it offers unparalleled opportunities for networking with peers and exploring new products, technologies and business opportunities.

This is just the start of another great year for NJSFPE as a leader in fire protection education and awareness in the state of New Jersey.

I look forward to seeing you at our chapter meeting on Monday, September 10th at the Hanover Manor at 16 Eagle Rock Avenue, East Hanover, NJ. Come welcome our new State Fire Marshal, Richard Mikutsky.

Paul

Chapter President
President Paul McGrath convened the meeting at 6:05 PM with a salute to the flag and customary introductions. A motion was made and carried to accept the minutes of the last meeting. A motion was made and carried to accept the May treasurer’s reports. A motion was made and carried to accept the following slate of officers and trustees for the upcoming chapter year beginning August 1, 2018:

**Officers**
- President: Paul McGrath
- Vice President: Chris Vitale
- Secretary: Joe Janiga
- Treasurer: Marios Michaelides

**Trustees**
- Jim Loftus (first year of 1 year term)
- Marvin Maradiaga (first year of 2 year term)
- Ernesto Vega-Janica (first year of 3 year term)
- Dave Gluckman (first year of 1 year term)
- Glenn Buser (first year of 2 year term)

A motion was made and carried to accept the application of John Ventrella from Red Hawk Fire and Security as a chapter member.

Michael Wilson gave us an update on the one- and two-family dwelling automatic sprinkler legislation. Hopefully there will be movement in September and the bill will be approved. This will not apply to manufactured homes or one- and two-family dwellings not connect to a water supply. There have already been 30 fire related deaths in NJ this year.

The first Metro Education Foundation Technical Conference to be held on Thursday October 11, 2018 at the Westchester Marriott, located at 670 White Plains Road in Tarrytown, NY. The event will feature a line-up of speakers who will present timely topics of interest to both the engineering and architectural fields. The conference is co-sponsored with the Westchester / Hudson Valley Chapter of AIA. The NJ Chapter has four free tickets to the conference and a drawing will be held at the September meeting. At the conference, IEEE will be offering a 20% discount for all SFPE publications bought thru IEEE.

Rich Reitberger and Jerry Naylis went to City College of NJ in Jersey City and spoke to Pat Boyle who runs the Fire Science program. CCNJ wants to expand this program and was interested in partnering with us. Jerry is putting together some classes they may like to use which focuses a little more on the science of fire protection. A committee will be formed led by Jerry so we can work with CCNJ. Rich, Dave Gluckman and Ernesto Vega-Janica will be on this committee and Rich will try to see if someone from ISO can serve on the committee as well.

Fire prevention week grant program is coming to an end – June 29. We have 11 applicants and we will address them at them annual planning meeting tentatively scheduled for August 2 at City Fire.

Our speaker tonight was Dave Barber, Principal Engineer, ARUP, who gave us a presentation titled, “Hi Rise Mass Timber Buildings – Issues and Solutions.”

Sustainability is a driving factor which has caused a resurgence in the interest of timber. It is relatively new technology for the U.S. but prevalent in Europe, UK and Canada. Cost efficiency is also an important factor since it is less expensive than steel and buildings can be built quicker. Mass timber is different than heavy timber and we reviewed the different types which include glulam, cross lam timber (CLT) and nail lam timber (NLT). We also were shown many different examples of structures that used mass timber.

Also discussed was the IBC limits for mass timber construction since most buildings are classified as Type IV construction (heavy timber), proposed changes to the 2021 IBC and fire situations involving mass timber.

Lastly, the 2018 National Design Specification (NDS) for Wood Construction was developed by the American Wood Council’s (AWC) Wood Design Standards Committee and is referenced in the 2018 International Building Code. Significant additions to the 2018 NDS include new Roof Sheathing Ring Shank nails and fastener head pull-through design provisions to address increased wind loads in ASCE 7-16 Minimum Design Loads and Associated Criteria for Buildings and Other Structures. This document is available at: [http://www.awc.org/codes-standards/publications/nds-2018](http://www.awc.org/codes-standards/publications/nds-2018)

The meeting was adjourned at 7:45 PM.
EPA rule delaying Risk Management Program amendments vacated from West, Texas fertilizer plant disaster

The U.S. Court of Appeals for the District of Columbia Circuit has vacated the Environmental Protection Agency’s rule to delay amendments to its Risk Management Program adopted in the wake of the West, Texas, fertilizer plant disaster.

The EPA under the Trump administration delayed the regulation several times and promulgated a final rule in June 2017 to delay its implementation for 20 months. But in July 2017, a group of 11 state attorneys general sued the EPA for delaying the regulation and the D.C. Circuit ruled in their favor on Friday

“Because EPA has not engaged in reasoned decision-making, its promulgation of the delay rule is arbitrary and capricious,” the appeals court said in vacating the delay rule.

In May 2018, the agency proposed a rule to rescind the planned changes — a regulation that was seen by some experts as gutting an effort to improve the safety of chemical facilities launched under the Obama administration even as incidents at these facilities continued to occur.

The Obama-era proposal, which features requirements for third-party audits and incident investigations at chemical facilities regulated by the agency, was adopted in the wake of the West fertilizer plant explosion that killed 15 people in 2013. But the EPA said its new proposal related to the Bureau of Alcohol, Tobacco, Firearms, and Explosives’ finding that the incident was caused by arson and not an accidental chemical incident. The fire and explosion at the West Fertilizer Co. killed 12 emergency responders and three civilians and injured more than 300 other people.

The appeals court rejected the Trump administration’s rationale for rescinding the regulation.

“Even were the court to agree for purposes of argument that the cause of the West, Texas, disaster being arson is relevant to some of the accident prevention provisions of the chemical disaster rule, it is irrelevant to the emergency-response and information-sharing provisions, including those that have indisputably been delayed from the original March 14, 2018, effective date,” the court stated.

“Given that 12 of the 15 fatalities in the West, Texas, disaster were local volunteer firefighters and other first responders, this would be a fairly weak explanation for delaying provisions that EPA previously determined would help keep first responders safe and informed about emergency-response planning.”

Jordan Barab, former deputy assistant secretary of the U.S. Occupational Safety and Health Administration under the Obama administration, called the appeal court’s decision “a stinging rebuke” to the EPA in his Confined Space safety and health newsletter on August 17.
SF PENJ Chapter October Bus trip

The October Chapter meeting this year will be a bus trip to multiple stops in New Jersey. Please refer to both the attached narrative on the trip as well as the flyer.

You can also sign up for the trip via the link below:

http://events.constantcontact.com/register/event?llr=gyofsfkab&oeidk=a07efm4r31w6e52a280

Thursday October 18th, 2018 Bus Trip

NJSFPE “Shore Tour”

This year’s Bus trip is the “Shore Tour”. Destination are to the Cooper Wheelock fire alarm system manufacturing plant (Long Branch), NJNG Training Center, Sea Girt for presentations on detection system equipment, design & testing plus a short course on NFPE 25. Final stop will be the Lobster Shanty (Pt. Pleasant) for sea side food and beverages. You don't want to miss this one. **$30 fee – Chapter Members Only**

**Itinerary**

08:30 – Bus leaves Parsippany, NJ (FM Global Parking Lot)  
90 minutes to Long Branch, NJ – Cooper / Wheelock Plant

10:00 – Long Branch: Tour Wheelock plant (2 groups of 20) – 2 Hours  
30 minutes to Sea Girt – NJ NG Base & Museum

12:30 – Sea Girt: Tour NJNG Museum – 30 minutes  
3 Hours – Presentations  
Wheelock - products & designs  
SDI- Test equipment – hands on and products  
ORR – NFPA 25

16:00 – Leave Sea Girt and bus to Point Pleasant  
30 minutes to PP

16:30 – Lobster Shanty for dinner buffet

18:30 Leave Lobster Shanty.

If weather is nice may stop at PP boardwalk for ice cream or taffy (30 minutes) then Bus back to Parsippany.
The Kearny Fire Department was presented with a grant for $1,000.00 from the New Jersey Chapter of the Society of Fire Protection Engineers (SFPE). The money will be used to purchase Carbon Monoxide Detectors.
The SFPE NJ/NY Education Foundation and the AIA Westchester / Hudson Valley Chapter will hold their First Annual Technical Conference at the Westchester Marriott, located at 670 White Plains Road in Tarrytown, NY on October 11, 2018. Come join us for some great technical training with your peers. See attached flyer for all the details.

Rich Reitberger, President
SFPE NJ NY Metro Chapters Education Foundation

---

**SFPE / AIA Joint Technical Conference**

When: October 11, 2018
7:30 AM – 4:30 PM

Location: Westchester Marriott
670 White Plains Rd
Tarrytown, NY

---

The SFPE NJ/NY Education Foundation and the AIA Westchester / Hudson Valley Chapter is pleased to announce our First Annual Technical Conference to be held at the Westchester Marriott, located at 670 White Plains Road in Tarrytown, NY on October 11, 2018. The event features a delicious hot breakfast and lunch buffets as well as coffee and water throughout the day. A cash bar reception will follow the event at Coopers Mill, located on property.

**Conference Highlights**

SFPE International President, J.C. Harrington will be our Key Note Speaker, and will be providing a preview of his State of the SFPE address planned for the SFPE North America Conference & Expo. He will also present “State of the Society, SFPE International”

Scheduled Speakers and Timely Topics to be presented include renowned local and national fire protection and life safety experts:

- **Kevin Morin, PE, Joe Plati, PE - CCI** - Stadium Fire Protection and Life Safety Design Challenges
- **Carl Baldassarra, PE, FSPFE Nick Ozog, PE, and Doug Stieve, AIA - WJE** - Exterior Cladding Fire Protection
- **Elizabeth Schoonman - Johnson Controls** - Addressable Notification and Self-Test Features
- **Sharron Halpert - Halpert Life Safety** - Passive Fire Protection Technology
- **Dan O’Connor, PE, FSPFE - Jensen Hughes** - Smoke Detection and Stratification
- **Tricia Fratto - Ethics Suite** - Engineering & Architectural Ethics

We will also be hosting a special Hospitality Industry Fire Protection Panel which will feature:

- **Rob Schmidt, PE - Marriott Hotels & Resorts; Paul Frederick, CPP - Hospitality Security Advisors; Michael J. Rzeznik, PE – WJE**

**Todd Harvey, RA – Beatty, Harvey, Coco Architects; Tom Gardner, PE, FSFPE - GHD**

Check our website for sponsorship opportunities (http://sfpenjnyfoundation.org), and remember to save the date for what is sure to be a fantastic event.

Note: Both engineering and architectural continuing education credits (CEU’s) will be issued for all attendees.

SFPE NJ NY Metro Chapters Education Foundation - Fall Conference October 11, 2018

All: As President of the SFPE NJ NY Metro Chapters Education Foundation I am pleased to announce our First Foundation Technical Conference to be held on Thursday October 11, 2018 at the Westchester Marriott, located at 670 White Plains Road in Tarrytown, NY.

The event will feature a great lineup of speakers who will present timely topics of interest to both the engineering and architectural fields. The conference is co-sponsored with the Westchester / Hudson Valley Chapter of AIA. In addition the event features a delicious hot breakfast and lunch buffets as well as coffee and water throughout the day. A cash bar reception will follow the event at Coopers Mill, located on property.

See the attached flyer in this edition of the Fusible Link for all of the details and thanks for your continued support of our Foundation.

Rich Reitberger
President
SFPE NJ NY Metro Chapters Education Foundation
The 2018 SFPE Annual Conference & Expo will be held on October 28-30 in Nashville, TN. Take control of your professional development with up-to-date technical trends including BIM, Large-Scale Fire Testing, Resiliency, Navigating the Rules, Fires Service, Industry Applications, and many more while earning 14 PDHs over 2 ½ days (plus up to 21 PDHs available from the optional Professional Development Seminars), and unparalleled networking opportunities with the right people.

Attendees can access over 55 sessions to get up-to-date on technical trends and case studies.

The post optional Professional Development Seminars are October 31 – November 2.

We look forward to welcoming you in Nashville! [https://www.sfpe.org/mpage/Nashville2018](https://www.sfpe.org/mpage/Nashville2018)

Company Background

Code Consultants, Inc. (CCI), a privately held and internationally recognized fire protection engineering and life safety consulting firm, is seeking experienced professionals to join our New York City office.

Founded in 1973, CCI is an industry leader, providing a diverse range of crucial fire protection and life safety consultation and design services including but not limited to:

- building and fire code consulting
- life safety consulting
- hazardous materials analysis
- accessibility consulting
- fire sprinkler design
- fire alarm design
- mass notification design
- fire and egress modeling

CCI’s experienced and trained team of over 80 professionals consist of fire protection engineers, architects, civil/mechanical/electrical engineers, code officials and members of the fire service. At CCI we value our team members and continuously strive to provide a great culture, career and personal development opportunities.

As a privately held firm, CCI’s management team is fully responsible for the strategic direction of the firm and successfully manages growth by maintaining a stable organizational structure, consistent professional service products across our offices, and applying objective performance-based compensation.

Role

As a member of the CCI team your responsibilities will include:

- Fire protection and life safety code consultation for a wide variety of projects and clients.
- Fire and egress modeling and developing alternate method concepts.
- Collaborating with CCI team members and clients, and interfacing with Building/Fire Officials.
- Participating in business development initiatives to expand and develop CCI services.
- Participating in the growth and development of your office, and CCI as a whole.

Qualifications

Ideal candidates will possess the following:

- A degree in fire protection engineering or related engineering discipline.
- Knowledge of Building/Fire/NFPA Codes and Standards related to fire protection and life safety.
- Excellent written and verbal communications skills.
- Be motivated by growth opportunities for themselves and CCI.
- Passion for providing the highest level of services to CCI clients.
- Sufficient experience to work autonomously on project related tasks.
- Fundamentals of Engineering (FE) or Professional Engineering (PE) licensure is desirable, but not required.

Compensation

CCI offers an excellent compensation package with an objective performance-based bonus program and benefits (including 401(k) with matching contributions, health, dental, vision, life and disability plans).

Contact

Interested and qualified candidates may send resumes to CCI’s Human Resources Department at HR@CodeConsultants.com.

Code Consultants, Inc. is EOE/Minorities/Females/Vet/Disabled
Property Loss Control Engineer

Sompo International Holdings Ltd. (Sompo International) is a specialty provider of property and casualty insurance and reinsurance, established in March 2017 as the result of the acquisition of Endurance Specialty Holdings Ltd. by Sompo Holdings Ltd. (Sompo).

Sompo's core business encompasses one of the largest property and casualty insurance groups in the Japanese domestic market. In addition, Sompo is engaged in the provision of insurance services as well as other related services through its global network of businesses operating in 32 countries around the world.

Sompo International is the international operation and a wholly owned subsidiary of Sompo, which trades on the Tokyo Stock Exchange. Through our operating subsidiaries, Sompo International underwrites agriculture, professional lines, property, marine and energy, and casualty and other specialty lines of insurance and catastrophe, property, casualty, professional lines, weather risk and specialty lines of reinsurance.

As a leading global provider of insurance and reinsurance, we recognize that our success is derived directly from those who matter most: our people. Sompo International’s headquarters is in Bermuda and we currently have offices in the United States, the United Kingdom, Continental Europe, and Asia. At Sompo International, a shared commitment to integrity, teamwork, agility, execution, and excellence define our culture, and we strive to create exceptional value for our clients and shareholders and maintain Sompo International as a desirable place to work.

We are seeking a HPR Property Loss Control Consultant for our Global Risk Solutions team. Global Risk Solutions offers comprehensive loss control services targeted at select industry verticals. Servicing middle market and large accounts domiciled in the U.S., we work through a network of retail brokers who share our commitment to long-term partnerships built on white glove service. This position will have the opportunity to work remotely.

The Loss Control Consultant will provide risk improvement consultation services for highly valued large and middle market commercial customers; providing added value for our clients. The focus of this position is to evaluate property risks, conduct on-site visits of existing and prospective clients and aid the underwriters in the selection and pricing of an account. The Loss Control Consultant will also be responsible to track trends at an account and book level and communicate effectively with our clients and brokers. Candidate must have proficiency in property, specifically HPR property loss control skills.

Duties and Responsibilities:

Prioritization and evaluation of new and renewal work volumes to meet the goals of the department; Possess a comprehensive understanding of the following areas: property and HPR (Highly Protected Risk) loss control exposures and risk control techniques.;

- Ability to create client facing reports and/or loss control surveys;
- Conduct loss control surveys at client locations to determine potential hazards and risk factors to be considered in underwriting/risk selection;
- Analyze loss or exposure trends, recognize opportunities to provide risk control products and/or services which can help reduce losses.
- Attend client/broker meetings, lunches, dinners and other social outings as applicable;
- Expand existing relationships and new prospective clients;
- Ensures compliance with all regulations and keeps abreast of any changes to laws and regulations which pertain to loss control;
- Explore and develop new technologies for delivering loss control services;
- Designs, develops, organizes and conducts training and staff development programs for internal and external customers; and
- Responsibilities also include the production of thought leadership articles or creation of LC library resources; and

Qualifications:

- A minimum of ten (10) years of experience in Property & HPR Loss Control within P&C insurance and/or private industry/government with at least (5) years in a Global Risk Management/technically complex environment.
- Established relationships with retail producers.
- Ability to plan strategically and prioritize workload to meet production and management objectives.
- Ability to be a team player.
- Ability to travel up to 35% of time. Travel will include driving, air travel, and overnight trips.

Sompo International offers a competitive compensation and benefits package commensurate with experience.

Employment Position Available

Job Description

Responsibilities:

Risk Logic Incorporated (RLI) is looking for an Asst. Property Loss Prevention Engineering Manager. The person will be able to review Highly Protected Risk “HPR” type property loss prevention surveys and write technical plan review letters. The applicant will need to work from home. The position includes minimal (if any) travel. Primary responsibilities will include conducting a technical review of insurance carrier and Risk Logic reports as well as plan review. Emphasis of the report review will focus on fire protection analyses, reviewing detailed Construction / Occupancy / Protection / Exposure (“COPE”) information and natural hazard exposures. Also the candidate will be conducting plan review for fire protection, construction, roofing, process hazards, and flammable liquids/aerosol exposures. The technical risk review and plan review will be conducted for large commercial and industrial facilities mostly in the U.S. and possibly abroad.

Position Requirements:

- Determine adequacy of automatic fire protection systems and water supplies for wide range of manufacturing and storage occupancies
- Analysis of natural hazard exposures and existing protection
- Develop recommendations for plan review using applicable NFPA and FM standards
- Expertise reviewing NLE’s, PML’s, and MFL’s
- Strong technical writing skills
- Self-motivated person who can work efficiently from a home office
- Understanding of Microsoft Windows, Word, Excel & Outlook
- Communicate daily via email and telephone
- Adequate interpersonal skills to communicate effectively with various clients

Work Experience Required:

- Minimum 5 years work experience at FM Global.
- Excellent understanding of NFPA and FM Global Standards

Required Education and Qualifications:

Bachelor of Science Degree in Engineering from an accredited college
Fire Protection PE license a plus

Salary & Benefits:

This is a part time position (20+ hours per week) that will be paid hourly. If successful it can turn into a full time position on January 1st.

If interested, please submit resume to jdurante@risklogic.com. Only qualified applicants meeting the above requirements should apply.

About Risk Logic Incorporated

RLI is a property loss prevention engineering company that provides comprehensive unbundled engineering services for insurance brokers, insurance carriers and directly with clients. Our services are performed globally. RLI has been in business for over 20 years. Go to www.risklogic.com for more information.
